RESEARCH INTERESTS

I am interested in galaxy evolution and AGN feedback beyond cosmic noon ($z \gtrsim 3$). I study star formation, AGN processes, and their impact on interstellar medium to cirumgalactic medium and stars of high-z galaxies using observations from various instruments.

SKILLS

Expert in the analysis of data from multi-wavelength IFU instruments on both ground-based and space telescopes: VLT/MUSE, ALMA and JWST NIRSpec & MIRI IFU.
